Answer 1

>> SELECT COUNT(Trainer_id) FROM Trainer_info WHERE Trainer_track = 'DOTNET';

```
mysql> SELECT COUNT(Trainer_id) FROM Trainer_info WHERE Trainer_track = 'DOTNET';
+------------------+
| COUNT(Trainer_id) |
+------------------+
|                1 |
+------------------+
1 row in set (0.00 sec)
```

Answer 2

>> SELECT AVG(Trainer_experience) FROM Trainer_Info WHERE Trainer_Track = 'JAVA';

```
mysql> SELECT AVG(Trainer_experience) FROM Trainer_Info WHERE Trainer_Track = 'JAVA';
+-----------------------+
| AVG(Trainer_experience) |
+-----------------------+
|               10.5000 |
+-----------------------+
1 row in set (0.00 sec)
```

Answer 3

>> SELECT Module_id from Module_info WHERE

Module_duration = (SELECT MIN(Module_duration) FROM Module_info);

```
mysql> SELECT Module_id from Module_info WHERE
    -> Module_duration = (SELECT MIN(Module_duration) FROM Module_info);
+-----------+
| Module_id |
+-----------+
| O10PLSQL  |
| O10SQL    |
+-----------+
2 rows in set (0.00 sec)
```

Answer 4

```
SELECT
    *
FROM
    training_basic.trainer_info
WHERE
    Trainer_Experience = (SELECT
            MAX(Trainer_Experience)
        FROM
            training_basic.trainer_info)
GROUP BY Trainer_Track;

SELECT
    *
FROM
    training_basic.trainer_info
WHERE
    Trainer_Experience = (SELECT
            MIN(Trainer_Experience)
        FROM
            training_basic.trainer_info)
GROUP BY Trainer_Track;
```
